

HECO has received the following information request from an Interested Party that seeks non-public confidential technical information in advance of the issuance of the Draft RFP. In accordance with the Commission's Decision & Order No. 23799, HECO has compiled a response to this information request and will make these responses available to the requesting party upon receipt of the fully executed Non-Disclosure Agreement developed specifically for this Solicitation of Interest/Request for Proposals.

Other Interested Parties that may have a similar need for this same information in advance of the Draft RFP may contact HECO via the Generation Bidding website and submit a request explaining the basis of their need for this same information. HECO will consider such requests and advise the Requestor via the Generation Bidding website as to whether this same information can be made available and what the appropriate cost would be.

For those that can wait until the issuance of the RFP documents, this same information will be made available by HECO without charge to all potential qualified bidders upon receipt of a Notice of Intent to Bid and the Non-Disclosure Agreement.

- 1 Q. Please describe the basic configurations of Makalapa, Airport Switching Station, Airport Substation, Iwilei, Archer and Koolau Substations in terms of major equipment and line positions.
